5) There have been many applications protesting against ~~effect~~ the proposed enhancement of the slaughter House fees, from the existing rates of 4 annas and Six annas, to six annas and eight annas

7) The Mysore city Municipal Council have overruled the above objections, as not being tenable

so as to increase the maximum fee
levied for the slaughter of the several classes
of animals as follows:-

	Existing rate	Proposed rate
1) Bullocks	6/6 per head	8/8 per head
2) Bullocks	3/6	4/8
3) Sheep, goats	1/6	2/-

This is intended to improve the N.I finances

There have been a number of petitions protesting against the proposed increase which we have taken them into consideration and the objections are overruled as being untenable

10) One of the objections preferred was the existence of the Meat Control Order which has since been withdrawn by the Govt

The other objections are that the prices of sheep & goat have gone up during wartime and some people would be put to much hardship if the rate of fee is increased, as they would have to pay more for the smaller sheep they have to purchase

11) It has to be conceded that there is some force in the representations made An increase of 50%, on the existing rate would perhaps work a hardship [illegible] in the case of those poor

people who are engaged in the trade but they would also hit the Consumers hard. The rates of fee proposed to be levied are also higher than those levied in the Mysore & the C&M states having regard to these facts, it is for consideration if, as a compromise, the existing rate of fee may be retained allowed by us anew. We should perhaps meet the requirements of the case hereby

Respected Sir,

Under Section 51(2)of the Act VII of 1933, the undersigned petitioners beg to file their objections to the proposed amendment of the slaughter house Bye-laws contained in Chapter XV of the Mysore City Municipal Rules and Bye-laws, Published in the Mysore Gazette dated 21.6 45 No M 5-219-692-44 and No m 5-220-699-44, for the following reasons among others

(1) This is the most in-opportune time to increase such fees as contemplated under Bye-law 71 Being war time, the food prices have already gone up very high and this increase of slaughtering fees would mean great hardship

(2) There is already in force the meat control order preventing slaughtering of animals for two days in the week and this increase in the fees would cause further inconvenience to all those people who are non-vegetarians

(3) Slaughtering fees in other places like Bombay and Madras do not exceed annas four per animal (Sheep and goats) and in Bangalore Cant the fee is 0-3-6 and in Bangalore City it is only 0-3-0

(4) The present Slaughter House has been located with tached building without proper equipment of a Slaughter House and is far away from the City proper Persons therefore, dealing in meat have been put to extra expenditure in respect of conveyance charges, besides being put to other inconveniences

(5) There has been a general rise of prices of sheep and goats and the Mysore City merchants are finding it extremely difficult to compete with outside merchants who purchase animals offering very high prices There is hardly little or no margin left between the cost price and the selling price of mutton and this increase in slaughtering fees would further decrease the little earning that the merchants are making

(6) The main object of the legislature in levying this fee is purely to control slaughtering of animals in order to safeguard the health and sanitation of the consumers rather than make any profit

profit out of this fees This levy is being collected to prevent unauthorised slaughtering of un-healthy animals by unlicenced people under insanitaryconditions. Keeping this in view, the Municipal Council was levying only 0-0-6 per animal some ten years back, which was increased to 0-2-6 and from 0-2-6 to annas 0-4-0. The right to collect this fees at the sheep slaughter house has been fetching a sum of Rs 18,000/- approximately, per year with a fee of annas 0-4-0 per animal, thetotal cost of upkeep not exceeding Rs 2000/-per year, having a profit of nearly Rs 16,000/- per year It is therefore submitted that the contemplated increase of annas 0-2-0 which is 50% of more than ½ the prevailing rate is not equitable and justifiable considered from any point of view

(7) Persons dealing in this trade are very poor and this increase of fee would effect them very seriously and will lead to illicit and surruptious slaughtering

(8) It is submitted that ultimately this increase of fee would prove a burden onthe poor consumer besides causing other inconvenience to the persons dealing in this trade

It is submitted that even prior to the approval of the amended bye-law the Mysore City Municipal Council has attempted to bring into force the enhanced fee as per the terms of the sale proclamation of the right to collect the daily fees of the sheep slaughter house The Municipal Council is not therefore likely to view the objections raised in an unbiased and impartial manner. The petitioners therefore pray that the Governmat may be pleased to exercise their veto power under Sec 51 R of Act VII of 1933 and be pleased to fix the old scale of fees

Mysore City Municipal Council,

Sir,

We, the undersigned petitioners most humbly beg to submit that most of us are either Butchers or Mutton stall holders. The Municipality seems to have passed an order that the tax on every sheep cut has been raised from annas four to annas six to be given effect to from 1-7-1945 This works as a great hardship to us in these hard days. The value of sheep is immensely increased and the trade has fallen low. The slaughter house of sheep is removed from the vicinity of the city to a great distance at Kesare and transport of mutton from there to Mysore is costing us more than three fold the original value We request you to take all these circumstances into consideration and help us to have our living People from Bangalore, Ootacamund, Kunoor, Coorg and other places go over here and enter into great competition and take away animals ~~nominally~~ at much higher value than can be offered here. In addition to these, the Deputy Commissioner, Mysore District, has served a notice upon us to sell mutton at Rs 1-4-0 and Re 1/- per seer immediately. This is an additional hardship to us. We have jointly made a application to the Deputy Commissioner on 11-6-1945 to increase the rates of and he has promised to passorders in consultation with you

2) Under these circumstances, we pray that you may view our case kindly and pass favourable orders and also

also recommend to the Deputy Commissioner to pass favourable orders regarding the rate of mutton to be sold

We pray that the new tax may not be levied and the old rate may be continued and the value of mutton may be kept the same as it is now

The President,

Sir,

We, the undersigned, petitioners, beg to state as follows -

1 The petitioners learn that the Municipal Council has passed orders that the fees payable for slaughtering sheep, goats and kids in the Municipal slaughter-house be raised from As 4/- to As 6/- from the 1st July 1945

2 The contractor has since the above date been insisting on payment of the above increased fees and the petitioner beg to state that the above order is inequitable and irregular fo the following reasons among others -

a) The meat control order and the Deputy Commissioner's order fixing up the meat rate have caused a good deal of inconvenience and hardship to the petitioners

b) Competition from outside in respect of purchasin animals has also caused loss and inconvenience to the petitioners

c) The shifting of the sheep slaughter-house to an inconvenient and out of the way place has completely upset the mutton rate The merchants have got to incur extra expenditure in connection with this change

d) The petitioners have already sent in their objection to the increased fees during this war time and before the period of entertaining objection has expired, is illegal, and inequitable to levy the enhanced fee before that period

e) The proposed amendment of the concerned bye-law have not been approved by the Government and the objections therefor, have not been considered even by the Municipal Council The levy therefore before the amended bye-laws are approved is illegal besides being inequitable

3 The petitioners, therefore pray that you may be pleased topass immediate and urgent orders to the Sheep slaughter-house Contractor to levy a fee of annas four only, and be pleased to recommend to the Council and to the Government to retain the old fee and not approve the proposed amendment in respect of this item of levy

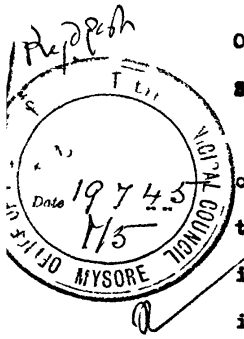
Sir,

We the undersigned beef butchers of Mysore beg to put forth the following Objections to the proposed enhancement of slaughtering fee at the bullock Slaughter House, Mysore, by the Municipality from Rs.0-6-0 to 0-8-0 .



At present on account of the rise in prices of the animals the rate of beef and other connected products has been raised and the public, especially the middle and poor classes who are accustomed to the consumption of beef feel it very hard and expensive to buy the meat. With the proposed enhancement it would necessitate to raise the rate further and thereby we will be compelled to suffer loss as the buying public would hesitate to go in for the meat. It is needless to bring to your kind notice that already two days in the week we are forbidden from either slaughtering or selling the meat. The trade is such that if any surplus were to remain over, it would not be possible to keep it for sale for the following day as the surplus would be condemned as stale and unfit for sale.

Misisan Re objn to enhancement of fee, in Beef Slaughter house

In these circumstances on account of the present financial and trade crises it is very difficult to make both ends meet and hence it would be very advisable for the welfare of the beef trade and that of the buying public not to raise the slaughtering fee at all and to allow it to remain as it is

We request that our objections would be favourably viewed and the proposed enhancement will not be put into operation If any further information or reasons are required we shall be glad to furnish the same. From 1-7-1945 the Contractor is already collecting the enhanced fee of Rs 0-8-0 and hence an early decision may kindly be arrived at.

Beging to be excused for the trouble and awaiting your kind and favourable decision.

(6) The main object of the lgislature in levying this fee is purely to control slaughtering of animals in order to safeguard the health

health and sanitation of the consumers rather than make any profit out of this fees. This levy is being collected to prevent unauthorised slaughtering of un-healthy animals by unlicenced people under insanitary conditions. Keeping this in view the Municipal Council was levying only 0-0-6 per animal some ten years back, which was increased to 0-2-6 and from 0-2-6 to annas 0-4-0. The right to collect this fees at the sheep slaughter house has been fetching a sum of Rs 18,000/- approximately, per year with a fee of annas 0-4-0 per animal; the total cost of upkeep not exceeding Rs: 2000/-per year, having a profit of nearly Rs 16,000/- per year. It is therefore submitted that the contemplated increase of annas 0-2-0 which is 50% of more than the prevailing rate is not equitable and justifiable considered from any point of view.

(7) Persons dealing in this trade are very poor and this increase of fee would effect them very seriously and will lead to illicit and surruptious slaughtering.

(8) It is submitted that ultimately this increase of fee would prove a burden on the poor consumer besides causing other inconveniences to the persons dealing in this trade.

The petitioners therefore pray that the amendment contemplated may be dropped and the old buy-laws 31 and 25 may be retained.

To

The President,
City Municipal Council,
Mysore

Sir,

We the undersighed citizens of Mysore City to state the following in connection with proposed enhancement of slaughtering fee of the bullock slaughtering house in Mysore The present rate of beef is so high that it is very difficult to buy and eat it that a number of families as we know are compelled to forego the consumption of meat. We know that if the Municipalit raises the fee, the sellers of beef will surely raise the price and deprive us of what little we can buy.

A few days ago a proposal was made to raise the slaughtering fee at the Sheep Slaughtering House but to the good luck of the public the Municipality has been pleased not to raise the fee and the consumers of mutto are at an advantage When the consumers of mutton have been thus favoured it would only be right to confer some favour on the consumers of beef also by allowing the fee to remain as it is.

PRESIDENT CITY MUNICIPAL COUNCIL No 21745 Date 115

We need not tell you that beef is largely consumed by the poor class which can not afford to buy mutton and in the interest of the Public request you to kindly consider the present situation and drop the proposed enhancement.

Begging to be excused for the trouble and awaiting your kind and favourable decision.

We beg to remain,
Sir,
Your most obedient servant,

Dr. T. C. M. Royan,
Minister for

Under Section 51(2) of the Act VII of 193_, the undersigned petitioners beg a file their objections to the proposed amendment of the slaughter house Bye-laws contained in Chapter X V of the Mysore City Municipal Rules and Bye-laws, Published in the Mysore Gazette dated 21.6.'45, No.M.5-219-632-44 and No.m 5-220-699-44, for the following reasons among others.

(1) This is the most in-opportune time to increase such fees as contemplated under Bye-law 31. Being war time the food prices have already gone up very high and this increase of slaughtering fees would mean great hardship.

(2) There is already in force the meat control order preventing slaughtering of animals for two days in the week and this increase in the fees would cause further inconvenience to all those people who are non-vegetarians.

(3) Slaughtering fees in other places like Bombay and Madras do not exceed annas four per animal (Sheep and goats) and in Bangalore Cant. the fee is 0-3-6 and in Bangalore City it is only 0-3-0.

(4) The present Slaughter House has been located with thatched building without proper equipment of a Slaughter House and is far away from the City proper. Persons therefore, dealing in meat have been put to extra expenditure in respect of conveyance charges, besides being put to other inconveniences.

(5) There has been a general rise of prices of sheep and goats and the Mysore City merchants are finding it extremely difficult to compete with out-side merchants who purchase animals offering very high prices. There is hardly little or no margin left between the cost price and the selling price of mutton and this increase in slaughtering fees would further decrease the little earning that the merchants are making.

(6) The main object of the lgislature in levying this fee is purely to control slaughtering of animals in order to safeguard the health

health and sanitation of the consumers rather than make any profit out of this fees. This levy is being collected to prevent unauthorised slaughtering of un-healthy animals by unlicenced people under insanitary conditions. Keeping this in view the Municipal Council was levying only 0-0-6 per animal some ten years back, which was increased to 0-2-6 and from 0-2-6 to annas 0-4-0. The right to collect this fees at the sheep slaughter house has been fetching a sum of ₹ 18,000/- approximately, per year with a fee of annas 0-4-0 per animal, the total cost of upkeep not exceeding ₹ 2000/-per year, having a profit of nearly ₹ 16,000/- per year. It is therefore submitted that the contemplated increase of annas 0-2-0 which is 50% of more than the prevailing rate is not equitable and justifiable considered from any point of view.

(7) Persons dealing in this trade are very poor and this increase of fee would effect them very seriously and will lead to illicit and surruptious slaughtering.

(8) It is submitted that ultimately this increase of fee would prove a burden on the poor consumer besides causing other inconveniences to the persons dealing in this trade.

It is submitted that even prior to the approval of the amended bye-law the Mysore City Municipal Council has attempted to bring into force the enhanced fee as per the terms of the sale proclamation of the right to collect thedaily fees of the sheep slaughter house. The Municipal Council is not therefore likely to view the objectsons raised in an unbiased and impartial manner The petitioners therefore pray that the Government may be pleased to exercise their veto power under Sec. 51 R of Act VII of 1933 and be pleasd to fix the old scale of fees.
